YOU ARE
WEARING A
SUSTAINABLE
PRODUCT

Since 2009 our mission has been focused on Eco and sustainability.

2117 develop and use high-end fabrics to give you the best possible environmentally friendly product design.

80% of our collection is made from recycled fabrics

100% of the cotton is organic grown

100% of our water repellent chemicals are PFC free

100% of our merino wool comes from non-mulesed

100% of our down is certified to the Responsible Down Standard (RDS)

160 PET bottles = 1 jacket

We provide easy access to
sustainability and design.

A warm welcome to our AW23 collection.

Your
2117 team

REPREVE RECYCLED FIBERS

Leading producer of recycled fibers, REPREVE transforms recycled plastic bottles into amazing products you use and wear everyday. Recycling plastic bottles can make a big difference. Since 2009, REPREVE has transformed more than 4 billion plastic bottles that have been recycled by you to make recycled fibers. 2117 of Sweden use recycled fibers from Repreve since 2011.

TRITECH

The majority of all 2117 garments with membrane use membrane from Trittech. Trittech membranes have passed REACH 148 and Oeko-tex-100 standards and this brand is constantly working to become more and more environmentally friendly. Trittech's PU membrane is PFCs free and have many advantages in comparison with PTFE and TPU.

TRITECH

DWR (DURABLE WATER REPELLENCY TREATMENT)

All 2117 garments have an ultra-thin treatment called DWR, a durable water repellent polymer, applied to the outermost fabric layer so that water beads up and rolls off rather than soaking in. Our DWR is PFC free, PFC's is hazardous to the environment and human beings.

RECCO® RESCUE SYSTEM

The RECCO® Rescue System is two-part technology. Ski resorts and rescue teams carry RECCO® detectors. The detector sends out a directional search signal, which is echoed by RECCO® reflectors worn by skiers, riders and other outdoors people. Recco can make a difference for you, Recco can help you to a second chance.

DUPONT SORONA

Dupont Sorona insulation is made of minimum 30% renewable sourced polymer that is made with annually plant-based ingredients. Production of Sorona also requires 30% less energy and reduces greenhouse gas emissions by 63%. Dupont Sorona is excellent in both warmth sealing and breathability.

ALTO PADDING

ALTO offer three varieties of padding. One where the padding is shaped like balls and one where the padding is in sheets. These ALTO paddings are made out of 100% recycled PET bottles. The third variant is a mix made of recycled plastic bottles and wool. The garments filled with ALTO padding will not only keep you warm and comfortable but will in the meantime also help to reduce the plastic waste that we are experiencing in the nature.

ALTO PADDING ALTO
 WOOL
 PADDING

MERINO WOOL

The special features of wool fibers from sheeps are their outstanding thermal properties and excellent climate control. We use padding with wool cause its eco friendly, temperature regulating and moisture regulating. We use only mulesing free wool.

MERINO

PRIMALOFT INSULATION

Originally developed to serve the needs of the U.S. Army, who desired a water resistant, synthetic alternative to goose down, PrimaLoft is recognized globally as the proven leader and constant pioneer of innovative comfort solutions. In 2010, PrimaLoft was awarded compliance with the bluesign criteria for environmental impact, establishing PrimaLoft as the first branded insulation manufacturer to obtain bluesign's system partner status in 2015 which is important for 2117 of Sweden.

FABRIC CONSTRUCTION:

3L shell construction
 100% Polyester (50% recycled) with T8 Yarn. T8 is strong, has high stretch, good color fastness and is quick-drying.

TREATMENT: PFC free DWR

INSULATION: No insulation
