

WORKBOOK AUTUMN/WINTER 2026-2027

27
OF SWEDEN

MEN 10-63

WOMEN 66-123

JUNIOR 126-134

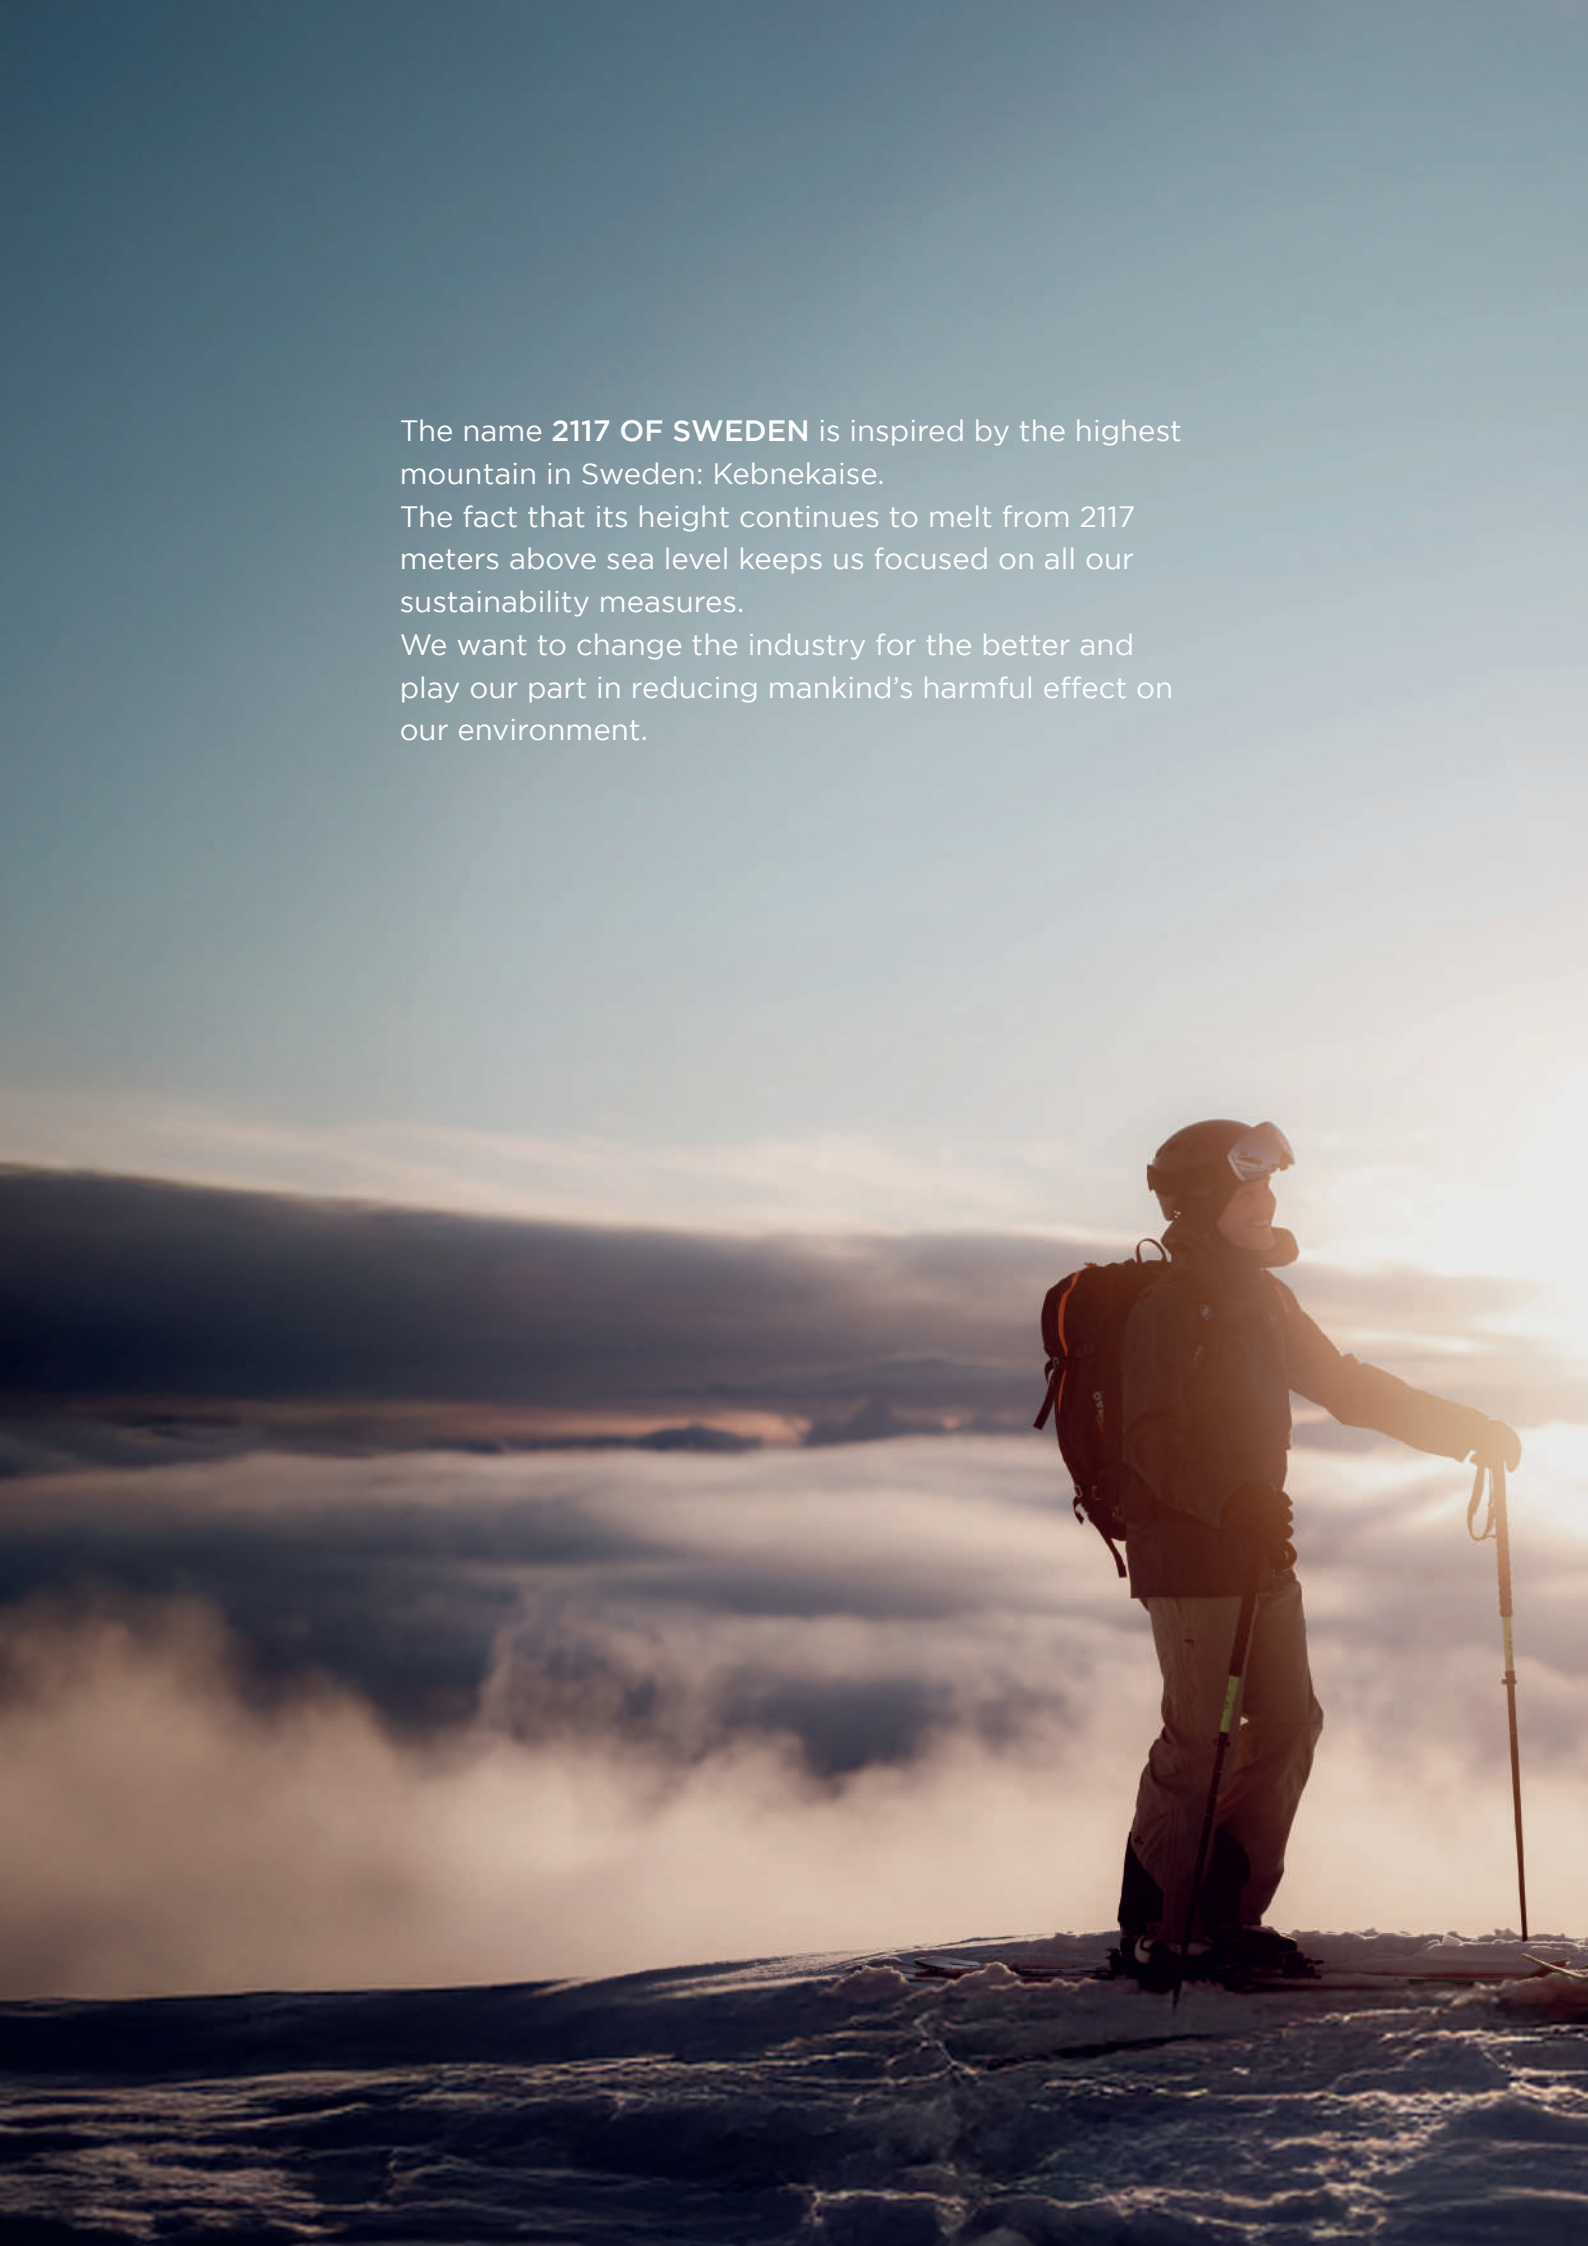

ACCESSORIES 138-146

DISTRIBUTORS 147

The name **2117 OF SWEDEN** is inspired by the highest mountain in Sweden: Kebnekaise.

The fact that its height continues to melt from 2117 meters above sea level keeps us focused on all our sustainability measures.

We want to change the industry for the better and play our part in reducing mankind's harmful effect on our environment.

We provide easy access to
sustainability and design.

A warm welcome to our AW26 collection.

Your
2117 team

REPREVE RECYCLED FIBERS

Leading producer of recycled fibers, REPREEVE transforms recycled plastic bottles into amazing products you use and wear everyday. Recycling plastic bottles can make a big difference. Since 2009, REPREEVE has transformed more than 4 billion plastic bottles that have been recycled by you to make recycled fibers. 2117 of Sweden use recycled fibers from Repreve since 2011.

TRITECH

The majority of all 2117 garments with membrane use membrane from Trittech. Trittech membranes have passed REACH 148 and Oeko-tex-100 standards and this brand is constantly working to become more and more environmentally friendly. Trittech's PU membrane is PFCs free and have many advantages in comparison with PTFE and TPU.

TRITECH

DWR (DURABLE WATER REPELLENCY TREATMENT)

All 2117 garments have an ultra-thin treatment called DWR, a durable water repellent polymer, applied to the outermost fabric layer so that water beads up and rolls off rather than soaking in. Our DWR is PFC free, PFC's is hazardous to the environment and human beings.

PFC FREE
DWR

ALTO PADDING

ALTO offer three varieties of padding. One where the padding is shaped like balls and one where the padding is in sheets. These ALTO paddings are made out of 100% recycled PET bottles. The third variant is a mix made of recycled plastic bottles and wool. The garments filled with ALTO padding will not only keep you warm and comfortable but will in the meantime also help to reduce the plastic waste that we are experiencing in the nature.

MERINO WOOL

The special features of wool fibers from sheeps are their outstanding thermal properties and excellent climate control. We use padding with wool cause its eco friendly, temperature regulating and moisture regulating. We use only mulesing free wool.

MERINO

VÁRRI COLLECTION

Várri means mountain in Sami. Sami is the language the indigenous people of Sweden speak. Since our brand is based on the height of Sweden's highest mountain, we have chosen to name our selected collection **Várri**.

This collection represents the soul of **2117 of Sweden**. We've taken no shortcuts and each individual piece utilises our proprietary fabrics and advanced product development. We compromise on nothing - knowing our customers would expect nothing less!

APPAREL MEN

FABRIC CONSTRUCTION:

3-layer shell construction, ripstop, 140gsm
100% Polyester (50% recycled) with T8 yarn. T8 is strong, has high stretch, good color fastness and is quick-drying.
