ABOUT US

Strafe Outerwear is an outdoor apparel brand that designs, manufactures, and sells products to active and tech-savvy mountain enthusiasts from all across the globe. With an initial focus on winter apparel for skiing and snowboarding, and having a deep-rooted understanding of its customers' demand for the highest level of performance and protection, Strafe now designs and produces outdoor apparel for all four seasons.

HISTORY

Founded as an LLC in 2009 and privately owned and operated by Pete and John Gaston, the Strafe headquarters are located at the base of the Aspen Highlands ski resort in Aspen, Colorado. This premier resort boasts a prominent feature called The Highland Bowl. Rising to 12,392 feet above sea level the bowl is rugged, unforgiving, and the ultimate environment for Strafe to put their products through the most rigorous testing.

The company's heritage and brand story is one of undeniable authenticity that resonates with Strafe's passionate employees and customer base. Designed with intention, all Strafe products are comprised of the very best materials and coupled with superlative fit, function, and construction.

MATERIALS & TECHNOLOGY

Fabrics, Insulations & Trims

PHOTO: IAN FOHRMAN

PERTEX SHIELD

Pertex® Shield 3L fabric is made for intense pursuits in challenging conditions, where weight and breathability are a priority. **100% Nylon rip stop face | PFAS-free hydrophilic PU membrane | 100% Nylon 20D tricot backer | 118g/m² | 40D/34D | PFC-free endurance DWR | 20K/18K**

NOMAD JACKET | NOMAD BIB | MEADOW JACKET | SCARLETT BIB

PERTEX SHIELD Revolve

Pertex® Shield 3L REVOLVE is highly breathable and waterproof, ideal for high-intensity backcountry conditions. Pertex® REVOLVE is composed entirely of recycled polyester that can be returned to their original raw materials when they reach the end of their useful life. **100% Recycled REVOLVE Polyester rip stop face | 103g/m² | 20D/20D | PFAS-free hydrophilic clear membrane | 20D rPES tricot backer | Endurance DWR | 20K/20K**

CHAM JACKET | CHAM PANT

PERTEX EQUILIBRIUM

Pertex® Equilibrium NetPlus® is a highly air-permeable 2-way stretch fabric. A tightly woven exterior is combined with an open weave interior, providing moderate protection from the elements while also transporting moisture away from the body, staying dry during the most intense endeavours. **NetPlus® post-consumer 100% Recycled Nylon | 36 g/m² | 20D/20D | C0 DWR | 7 CFM**

HIGHLANDS SHIRT JACKET | HIGHLANDS INSULATOR PANT | TEMERITY VEST

PERTEX QUANTUM Diamond Fuse

Pertex® Quantum DIAMOND FUSE NetPlus® uses a tightly woven structure to provide a light and soft downproof fabric that allows insulation to fully loft, providing both comfort and enhanced thermal performance. In addition, the Diamond Fuse filaments have a uniquely engineered rhomboid form, providing significantly increased durability to the fabric. **NetPlus® post-consumer 100% Recycled Nylon | 38g/m² | 20D/20D | PFC-free DWR | bluesign® certified**

PALISADE INSULATOR | PALISADE VEST

brrr°

brrr°'s cooling technology creates a Triple Chill Effect®, harnessing the independent factors of cooling minerals, rapid drying, and active wicking. Combining these powerful ingredients results in a fabric that is immediately cool to the touch and draws heat and moisture away from the body to lower the temperature of skin. **49% Polyester/37% brrr° Nylon/14% Spandex | 147g/m² | Cooling value - Qmax 0.171cm² | C0 DWR**

RECON TOURING PULLOVER | RECON TOURING PANT

FLYTEC®

Flytec® 2L Defend Pro 4-way stretch fabric provides superior waterproofing and breathable protection. Made with T8 Tech, a revolutionary yarn technology, this fabric is engineered to form a unique microstructure, providing long-lasting stretch and unrestricted comfort. **Plain weave 100% Polyester | PFAS -free hydrophilic membrane | 10K/10K | 160 g/m² | 75D/75D | C0 DWR**

HAYDEN JACKET | EXHIBITION JACKET | SUMMIT PANT | SILVERQUEEN JACKET | CLOUD 9 JACKET | EDEN PANT

RECON ELITE

The Recon Elite 3L is a supremely durable 4-way stretch fabric that prevents snow, sleet, and wind from penetrating the surface. Combined with a highly breathable membrane, which allows moisture vapor and body heat to escape from inside the garment, this material offers superior waterproofing, comfort, and performance. **100% Nylon stretch | PFAS-free microporous membrane with top coat laminate | 100% Polyester 20D jersey backer | C0 DWR | 168 g/m² | 63D/63D | 20K/20K | 0.02CFM**

PYRAMID JACKET | CAPITOL PANT | BELLE JACKET | BELLE PANT

RECON SHIELD

Ultralight yet durable, the abrasion resistant Recon Shield fabric is a tightly woven nylon ripstop with DWR coating, making it windproof and moisture resistant. Insulators made with this material perform equally well layered under a shell as they do on their own in cooler weather. **Lightweight mini rip-stop | 100% Recycled Nylon | 26g/m² | 10D/10D | C0 DWR**

AERO UL INSULATOR | AERO INSULATOR

RECON DWR

Lightweight, 4-way stretch fabric is treated with a DWR coating, making it wind and moisture resistant for extra comfort and protection against the elements. Mainly used for our powder skirts, bibs & pockets. **85% Nylon/15% Spandex | C0 DWR**

RECCO® ADVANCED RESCUE TECHNOLOGY

The RECCO® reflector in our shell products enables rescue professionals to locate you with RECCO® detectors in the event of an avalanche accident, or when lost in the outdoors. RECCO® reflectors require no power and no activation to function, and are used by rescue professionals worldwide. Multiple reflectors are recommended for optimal performance.

INCLUDED IN ALL SHELL JACKETS AND PANTS

YKK®

The YKK® Fastening Products Group is trusted world-wide for their impeccable production standards and thorough quality control processes for zippers. We use YKK® zippers on all of our products because they are the most reliable and durable zippers available.

CORDURA® Advanced Fabrics

Advanced fabric technology and textile innovation specifically designed for high-performance, CORDURA® is engineered for long-lasting durability, using advanced technology and solutions to protect against tears and scuffs.

PRIMALOFT® SILVER P.U.R.E.™

PrimaLoft® Silver P.U.R.E.™ insulation sets new standard for renewable manufacturing technology by transforming the manufacturing of synthetic insulation to drastically reduce the carbon emissions produced during the process. It offers warmth without bulk and is soft, packable, and lightweight, mimicking the compression of down. Its ultra-fine fibers are water resistant and breathable, allowing mositure vapor to be transported away from the skin ensuring a drier, more comfortable experience. **100% Polyester | 100% Recycled content | bluesign® approved**

HAYDEN JACKET | SILVERQUEEN JACKET

PRIMALOFT® SILVER

PrimaLoft® Silver Insulation is a go-to for technical performance for instances requiring warmth, especially in cold and wet conditions. Millions of air pockets trap body heat in extreme conditions and lack of bulk means great freedom of movement for the activity. The PrimaLoft® proprietary treatment ensures excellent performance as the insulation maintains its warmth properties even in wet conditions. Designed for durability in a lightweight design for active applications, packability, breathability, and softness. **100% Polyester | 100% Recycled content | bluesign® approved**

EXHIBITION JACKET | SUMMIT PANT | CLOUD 9 JACKET | EDEN PANT

PRIMALOFT® GOLD WITH CROSS CORE™

PrimaLoft® Gold insulation with Cross Core™ technology fuses NASA developed Aerogel particles (composed of 95% air) with the superior warmth and packability of PrimaLoft® Gold fibers to create next-level comfort and performance. Reaching new levels of warmth this insulation provides in excess of 50% more warmth compared to traditional PrimaLoft® Gold Insulation. **100% Polyester | 90% Recycled fibers**

AERO UL INSULATOR | AERO INSULATOR

PRIMALOFT® ACTIVE EVOLVE

PrimaLoft® Active Evolve incorporates air-permeable moisture management, and stretch, to keep you comfortable in a wide range of activities, regardless of intensity or season. **100% Polyester | 58% Recycled content**

HIGHLANDS SHIRT JACKET | HIGHLANDS INSULATOR SHORT | TEMERITY VEST

ALLIED FEATHER + DOWN

We are proud to partner with Allied Feather + Down for the first time, global leaders in responsibly-sourced sustainably-processed down insulation. Allied Feather + Down provides sustainable traceable down so you have a clear mind your new product is a result of safe working conditions and environmental responsibilty in the finished-goods factories, and the farms raising the animals.

PALISADE INSULATOR | PALISADE VEST

ALLIED FEATHER + DOWN ExpeDRY™

Allied Feather + Down ExpeDRY™ is a new chemical free alternative to WR treated hydrophobic down that performs better in real world situations, and uses 70% fewer resources to produce. It works through a permanent and chemical-free bonding of non-toxic gold particles to the down cluster which actively attacks the humidity inside the insulation and keeps the entire chamber dry in extreme conditions.

MEN'S SIZE CHART

SIZE	HEIGHT	ACROSS SHOULDER	SLEEVE LENGTH FROM CB	CHEST	WAIST	HIP	INSEAM

Please note: All figures listed corresponds to actual body measurements, not the dimensions of the garment.

MEN'S FIT GUIDE

ACTIVE Trim fit, but loose enough for layering and movement.

STANDARD Not too tight, not too loose. Fits comfortably over base and mid-layers without restricting movement.

RELAXED Roomier and more progressive, relaxed styles fit a wide variety of shapes and sizes.

HOW TO MEASURE

CHEST With arms relaxed at your sides, measure under your arms, around the fullest part of your chest.

SLEEVE With arm relaxed at your side and slightly bent, measure from center back neck, across shoulder to elbow and down to wrist.

WAIST Measure around your waist at the narrowest part.

HIPS Standing with feet hip width apart, measure around your hips at the widest part.

INSEAM From a standing position, measure from your crotch down the inside leg to the floor.

PRIMALOFT® SILVER P.U.R.E.™

PrimaLoft® P.U.R.E.™ sets new standard for renewable manufacturing technology by transforming the manufacturing of synthetic insulation to drastically reduce the carbon emissions produced during the process. The superior characteristics of PrimaLoft® Silver P.U.R.E.™ insulation offers warmth without bulk and is soft, packable, and lightweight, mimicking the compression of down. Its ultra-fine fibers are water resistant and breathable, allowing mositure vapor to be transported away from the skin ensuring a drier, more comfortable experience. The environmental impact from one year of production with only one of PrimaLoft®'s insulation products*:

Up to 70% reduction in carbon emissions (CO_2)
Saving 231,075 kgs of carbon
Totaling 1,032,998 kilometers – enough to drive around the world 26 times
Or the equivalent of planting 10,613 trees

High performing, sustainable insulation that keeps you warm and protected, no matter the conditions.

Warm

Designed to trap heat, keeping you comfortable and thermally-regulated

Water Resistant

Fibers repel moisture to keep you warm in wet conditions

Lightweight

Ultra-fine fibers create lightweight, thermally efficient materials regulate your body tempature

QUANTUM

DOWNPROOF
SUPER LIGHT
WINDPROOF
WATER RESISTANT

For static activities where maintaining body heat is key and dynamic activities in very cold conditions.

Pertex® Quantum uses a tightly woven structure to provide a light and soft downproof fabric that allows insulation to fully loft, providing both comfort and enhanced thermal performance. In addition, Pertex Diamond Fuse filaments have a uniquely engineered rhomboid form, providing significantly increased durability to the fabric.

Precisely constructed from incredibly fine yarns, Pertex® Quantum fabrics are designed to trap still air and improve the efficiency of insulation. A durable water repellent (DWR) finish sheds light rain and snow to provide additional weather protection.

MOISTURE MANAGEMENT
STRETCH

PrimaLoft® Active Evolve incorporates air-permeable moisture management, and stretch, to keep you comfortable in a wide range of activities, designed to keep you warm in wet weather and during high intensity workouts. This insulation provides the versatility you need, get outside and stay warm regardless of temperature or season.

- High warmth to weight ratio
- Durable and water resistant
- Highly air-permeable

MATERIALS & SPECS

FACE FABRIC: Pertex® Equilibrium NetPlus® 2-way stretch double-weave | 100% Recycled Nylon | 36 g/m² | 20D/20D | C0 DWR | 7 CFM
INSULATION: PrimaLoft® Active Evolve Insulation | 58% Recycled Polyester/ 42% Polyester | 75gm body, sleeves, collar
LINING: Pertex® Equilibrium NetPlus® 2-way stretch double-weave | 100% Recycled Nylon | 36 g/m² | 20D/20D | C0 DWR | 7 CFM
FIT: Standard **CB LENGTH (M):** 29.5"
SIZES: S-XXL

FEATURES

Lightweight & air-permeable mechanical stretch double rip stop face & interior | Open welt hand pockets | Interior drop pockets | YKK® snaps at CF placket & cuffs | Mock neck collar

UNISEX FIT GUIDE

ACTIVE Trim fit, but loose enough for layering and movement.

STANDARD Not too tight, not too loose. Fits comfortably over base and mid-layers without restricting movement.

RELAXED Roomier and more progressive, relaxed styles fit a wide variety of shapes and sizes.

HOW TO MEASURE

CHEST With arms relaxed at your sides, measure under your arms, around the fullest part of your chest.

SLEEVE With arm relaxed at your side and slightly bent, measure from center back neck, across shoulder to elbow and down to wrist.

WAIST Measure around your waist at the narrowest part.

HIPS Standing with feet hip width apart, measure around your hips at the widest part.

INSEAM From a standing position, measure from your crotch down the inside leg to the floor.

THE CHAM KIT

BEST TOURING JACKET. PERIOD.

"GREAT FIT. GREAT STORAGE. GREAT BREATHABILITY."

A stand-out piece in the ski touring and ski mountaineering space, the Cham Jacket is a lightweight 3L shell designed for exceptional uphill and downhill performance. Made with Pertex® Shield fabric, this jacket is our most waterproof and breathable to date. The fabric retains superior weather-proofing qualities while strategic paneling and 4-way stretch deliver uninhibited mobility. Knowing that less is more, we've paired down this jacket to the absolute essentials - sleek and minimalistic, the Cham is truly an ultralight 3L shell. If you're serious about touring and mountain objectives, this is the jacket for you.

2023 Outside Magazine Editor's Choice - Ski Touring Jackets

Ultralight, minimalist design for ultimate touring shell performance

No powderskirt, wrist cuffs, or superfluous add-ons

PRIMALOFT® SILVER P.U.R.E.™

PrimaLoft® P.U.R.E.™ sets new standard for renewable manufacturing technology by transforming the manufacturing of synthetic insulation to drastically reduce the carbon emissions produced during the process. The superior characteristics of PrimaLoft® Silver P.U.R.E.™ insulation offers warmth without bulk and is soft, packable, and lightweight, mimicking the compression of down. Its ultra-fine fibers are water resistant and breathable, allowing mositure vapor to be transported away from the skin ensuring a drier, more comfortable experience. The environmental impact from one year of production with only one of PrimaLoft®'s insulation products*:

- Up to 70% reduction in carbon emissions (CO_2)
- Saving 231,075 kgs of carbon
- Totaling 1,032,998 kilometers – enough to drive around the world 26 times
- Or the equivalent of planting 10,613 trees

High performing, sustainable insulation that keeps you warm and protected, no matter the conditions.

Warm

Designed to trap heat, keeping you comfortable and thermally-regulated

Water Resistant

Fibers repel moisture to keep you warm in wet conditions

Lightweight

Ultra-fine fibers create lightweight, thermally efficient materials regulate your body tempature

Recycled Content

PrimaLoft® insulation is designed to reduce environmental impact

ExpeDRY™

Allied Feather + Down ExpeDRY™ works through a permanent and chemical-free bonding of non-toxic gold particles to the down cluster which actively attacks the humidity inside the insulation and keeps the entire chamber dry in extreme conditions.

ExpeDRY™ is a new chemical free alternative to WR treated hydrophobic down that performs better in real world situations, and uses 70% fewer resources to produce.

- High performing water resistant alternative for real world situations
- Chemical free
- Permanent
- Non-toxic and safe for environment
- Keeps insulation chamber dry under extreme humidity
- Helps to reduce the build up of mold and fungus
- Decreases carbon footprint while increasing performance

QUANTUM

DOWNPROOF
SUPER LIGHT
WINDPROOF
WATER RESISTANT

Pertex® Quantum uses a tightly woven structure to provide a light and soft downproof fabric that allows insulation to fully loft, providing both comfort and enhanced thermal performance. In addition, Pertex Diamond Fuse filaments have a uniquely engineered rhomboid form, providing significantly increased durability to the fabric.

Precisely constructed from incredibly fine yarns, Pertex® Quantum fabrics are designed to trap still air and improve the efficiency of insulation. A durable water repellent (DWR) finish sheds light rain and snow to provide additional weather protection.

:PERTEX:

EQUILIBRIUM

DOUBLE-WEAVE CONSTRUCTION
SOFT & LIGHT
NEXT-TO-SKIN COMFORT
FAST DRYING

FOR DYNAMIC ACTIVITIES IN A WIDE RANGE OF CONDITIONS.

Pertex® Equilibrium uses a double weave construction. A tightly woven outer face provides protection from the elements. Combined with a more openly woven inner face, the fabric structure transports moisture away from the body.

Open weave interior and tightly woven exterior

Highly air-permeable

NetPlus®
